field recording, photographs, and videos by alexandre fenerich, lucca totti, and josé ricardo

electric guitar, lucca totti

live electronics, alexandre fenerich

live visuals, josé ricardo

This performance was made after a train trip from the Rio de Janeiro downtown train station, called Central do Brasil, to Saracuruna, all the way to Vila Inhomirim and then returning to Rio de Janeiro downtown. We have recorded audio, taken photographs, and made videos throughout the trip, which took around eight hours total. After that we got together to create a live performance with the collected materials.
